

FX-III JET SET Utilized To Seal Leaks In Blue Mountain Tunnel

www.foxind.com **FN-245**

Fox Industries, Inc. • 3100 Falls Cliff Road • Baltimore, Maryland 21211

Blue Mountain Tunnel is located on the Pennsylvania Turnpike.

Contractor (Western Well & Pump Co.) requested FX-III Jet Set to be packaged in 55 gallon drums, due to the large quantity needed to complete the leak repair. Packing in drums also helps alleviate storage problems and excess containers, making it easier to dispose of complying with E.P.A. regulations.

Under supervision of a Fox Industries Technician, with a minimum of 5 years of experience, contractor drills holes and sets grout packers at pre-determined locations.

FX-III Jet Set is dispensed into pumping equipment that will meter the flow of Jet Set to the packers.
