

Fox Products are Utilized in Renovation of Historic Hippodrome Theater – Baltimore, MD

www.foxind.com **FN-299**

Fox Industries, Inc. • 3100 Falls Cliff Road • Baltimore, Maryland 21211

Cracks in the brick foundation wall of the Hippodrome Theater needed to be repaired.

Injection ports are installed and secured in place with FX-763 Clear Non Sag Epoxy.

FX-751 LV Epoxy is pumped through ports using air powered handgun and double barrel epoxy tubes with static mixers. (over)

Using the static mixing heads eliminates the need to premix the injection epoxy.
